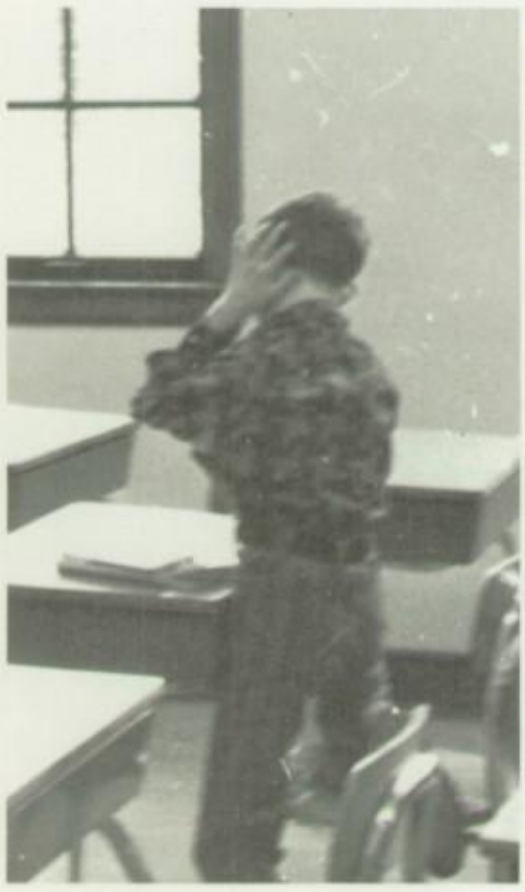
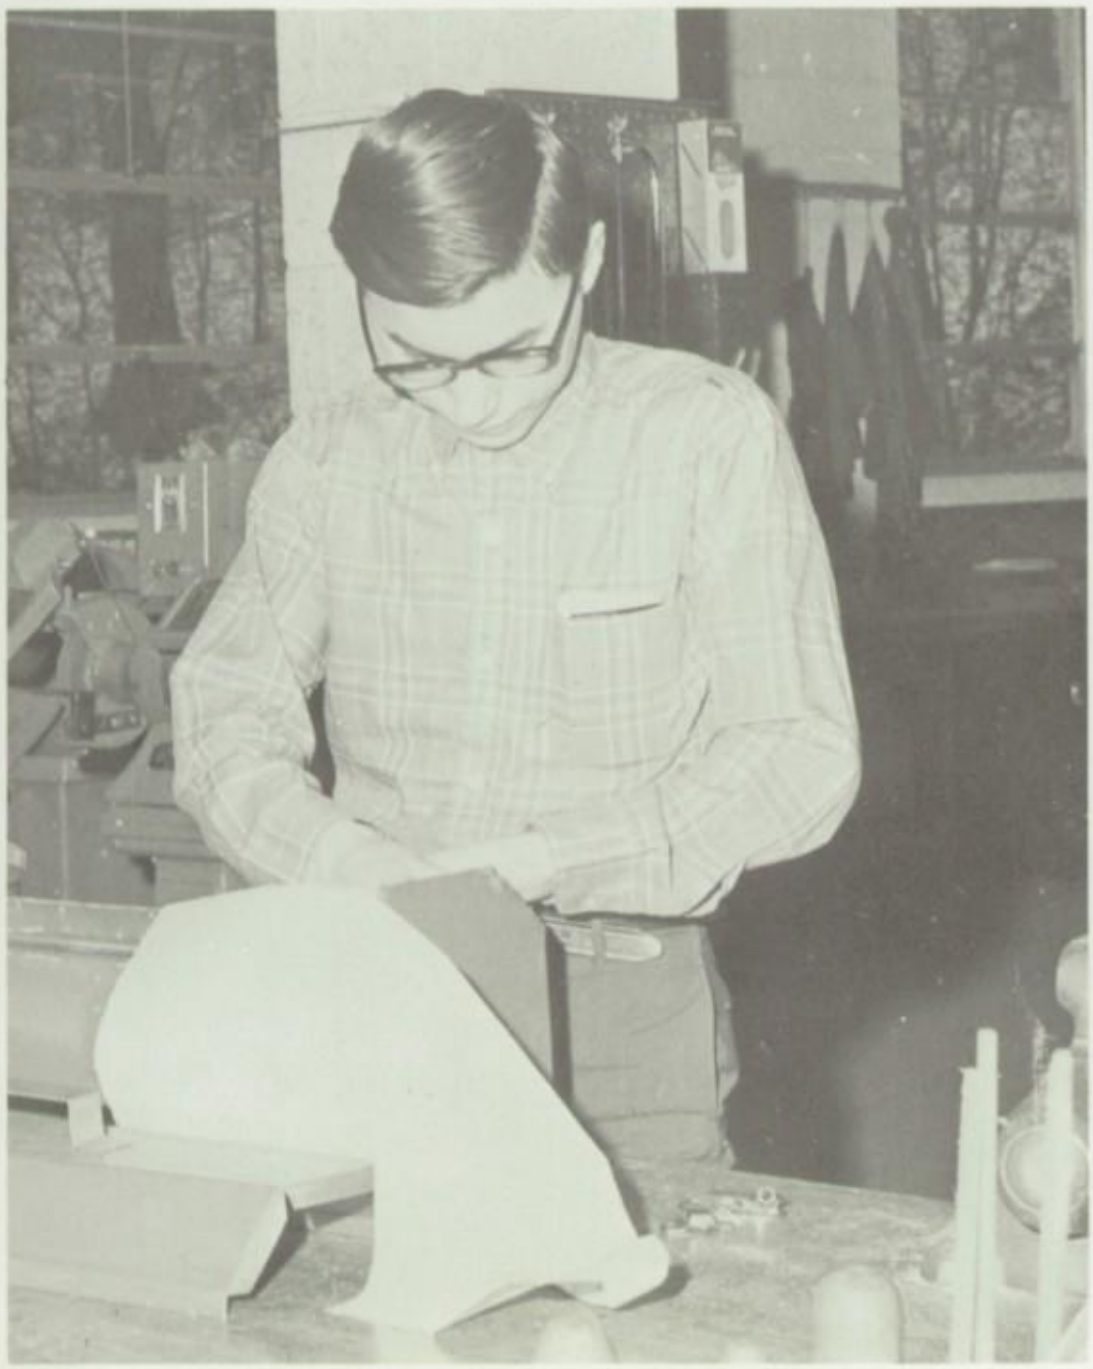
life (līf), N. pl. Lives (līvz)

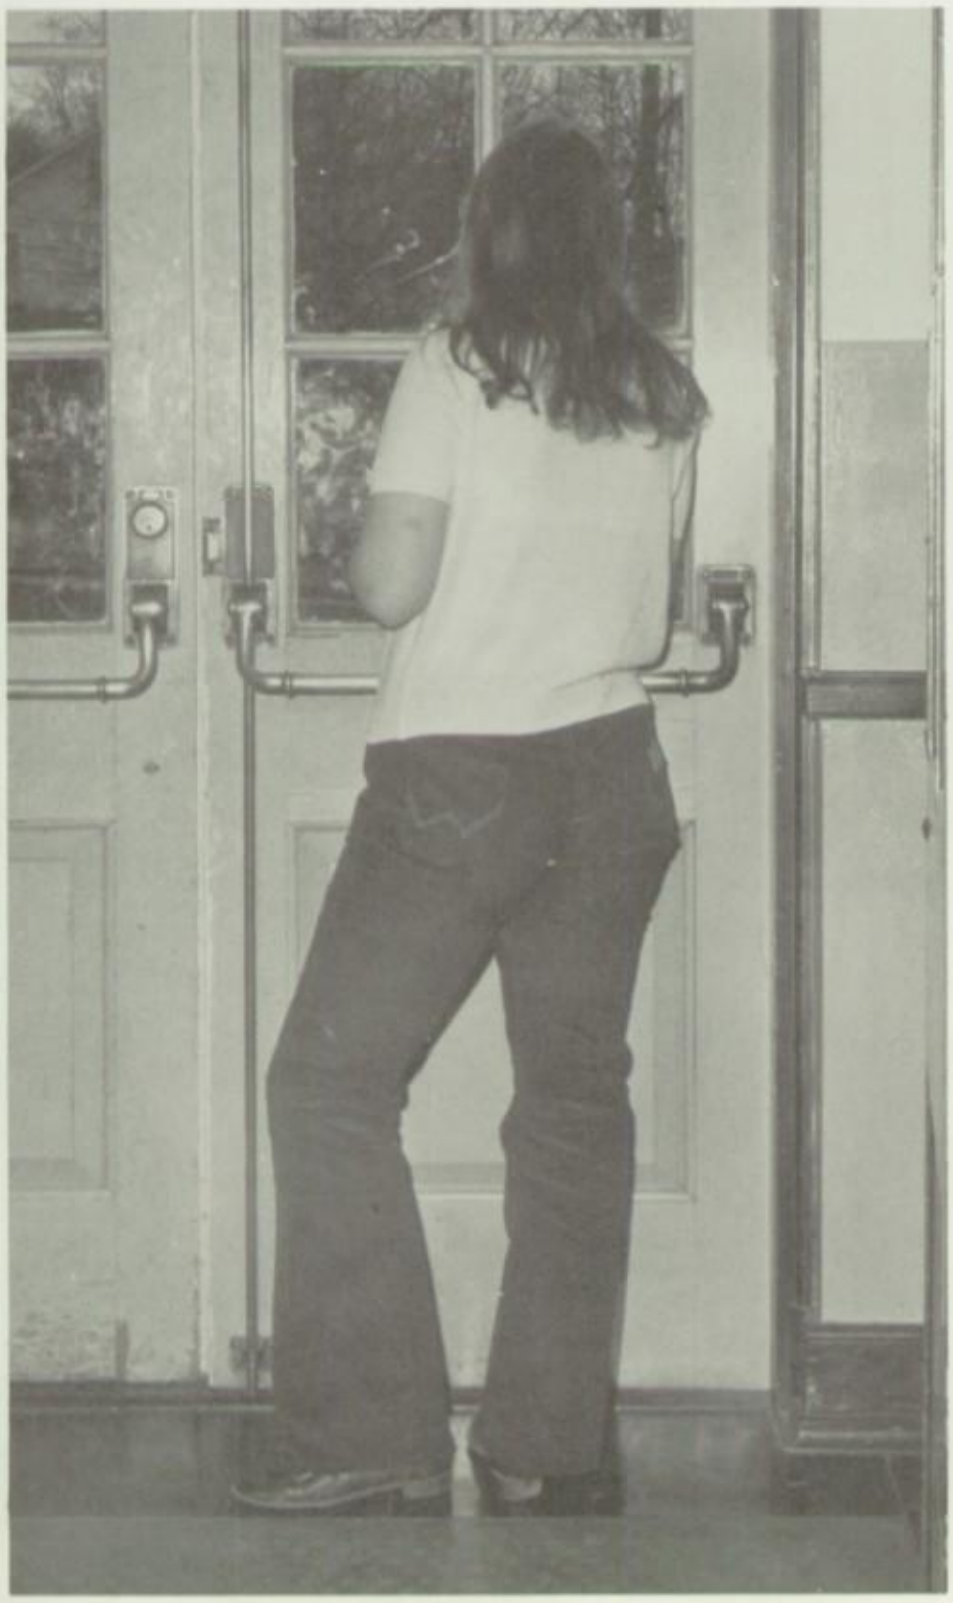
1. that property of plants and animals which makes it possible for them to take in food, get energy from it, grow, adapt themselves to their surroundings, and reproduce their kind: it is the quality that distinguishes a living animal or plant from inorganic matter or a dead organism. 2. the state of possessing this property: as, we tried to bring the drowned child back to life. 3. a living being, especially a human being: as, the cyclone took a heavy toll of lives. 4. living things collectively, often of a specified kind: as, plant life. 5. the time a person or thing is alive, or a specific portion of such time: as, Shakespeare's life in London. 6. one's manner of living: as, his was a life of poverty. 7. an individual's animate existence. 8. vigor; liveliness; animation; vivacity.





Every mornin' the sun lights us all.
The trees ask for nothing;
They just let their fruit fall.
Fire's the same no matter
What the source.
The flame of life burns on.
It's never, never lost.

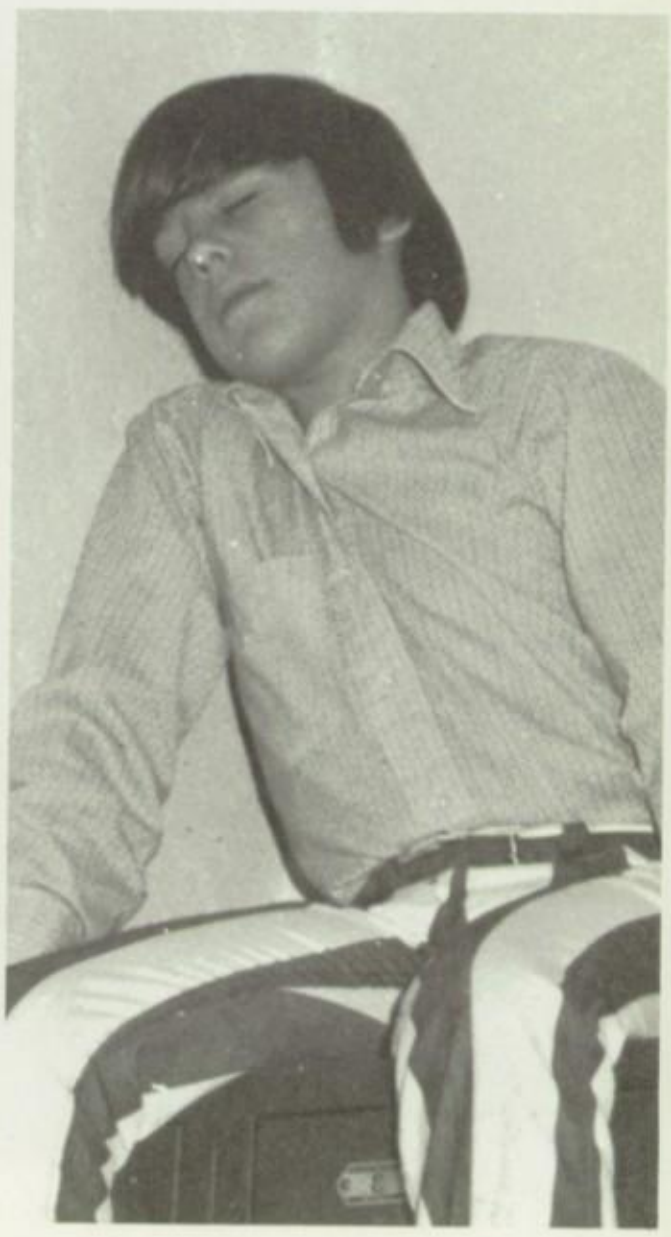
Felix Cavaliere

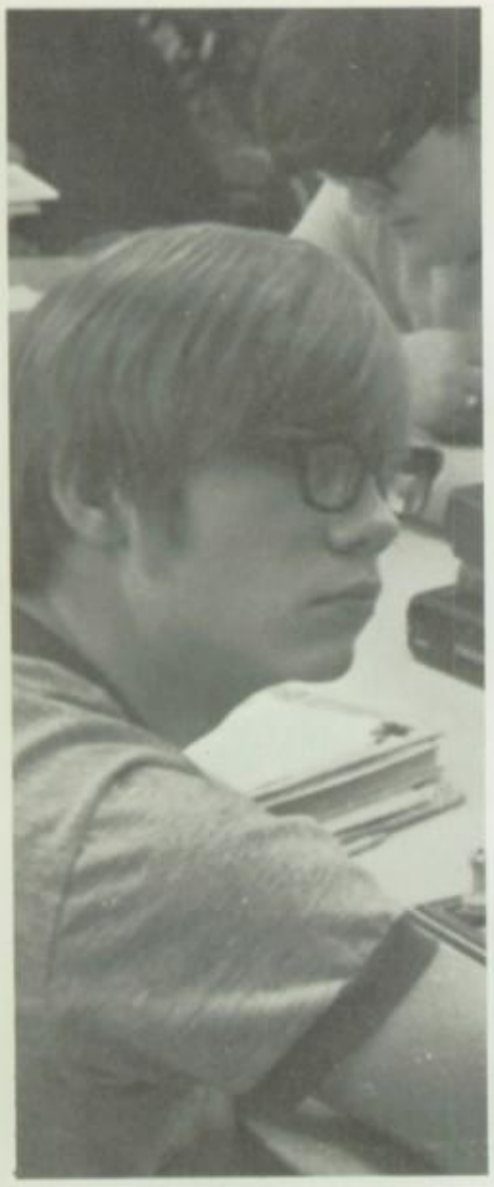


As we live, we are transmitters of life.
And when we fail to transmit life,
Life fails to flow through us.
But giving is not so easy. It doesn't
mean handing life out to some fool
or letting the living dead eat you up.
It means kindling the quality of life
where it was not.

D. H. Lawrence

"Go Orange" Go BLACK"
EAT 'EM UP
EAT 'EM UP
KNIFE

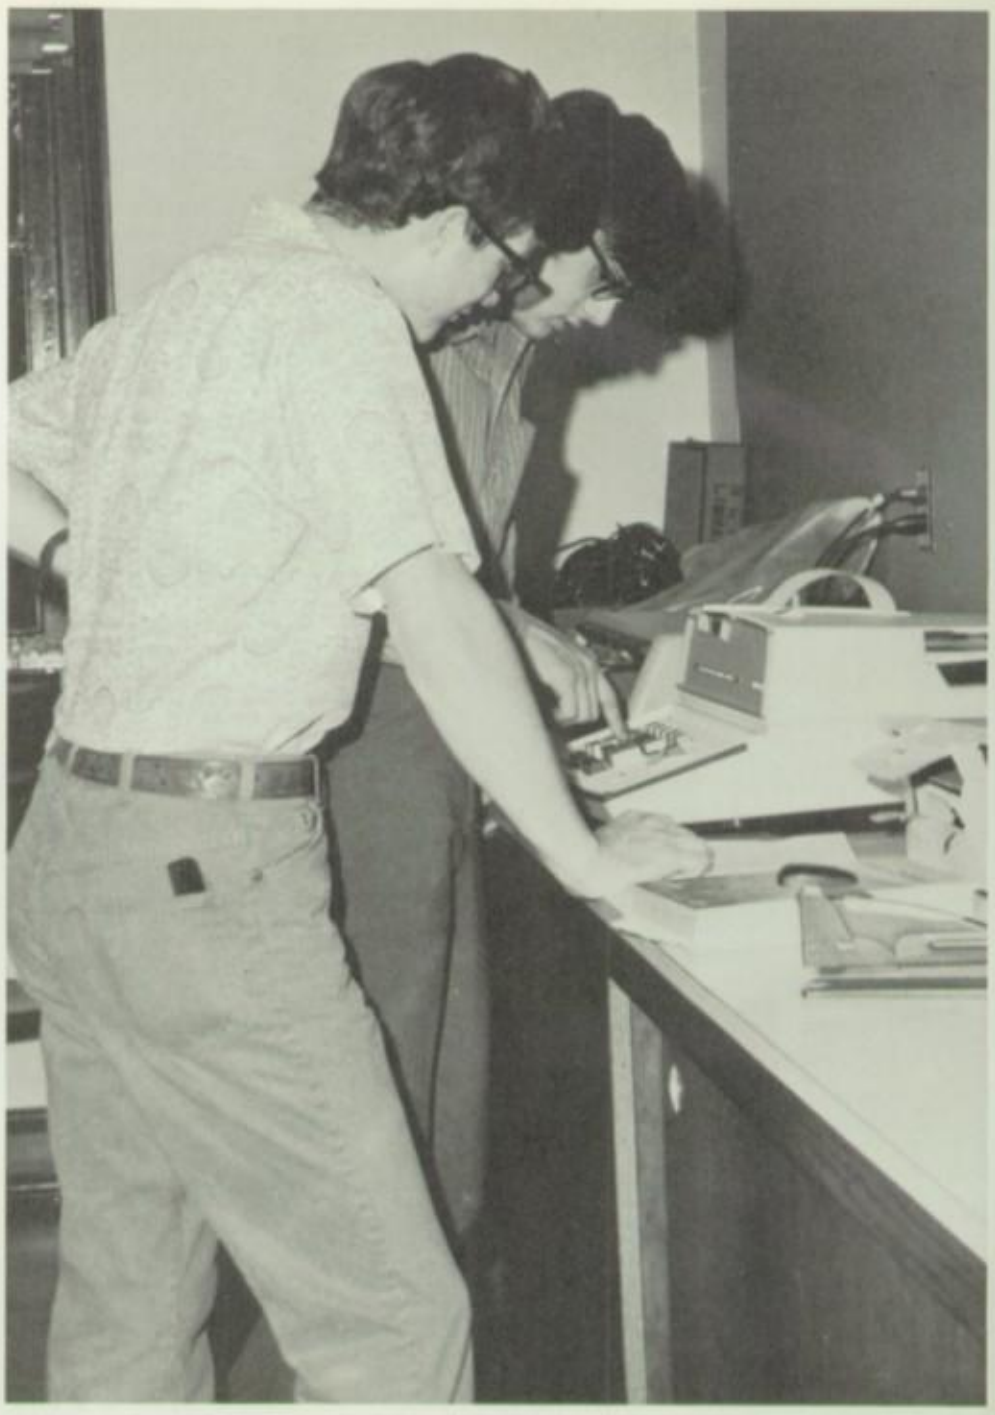




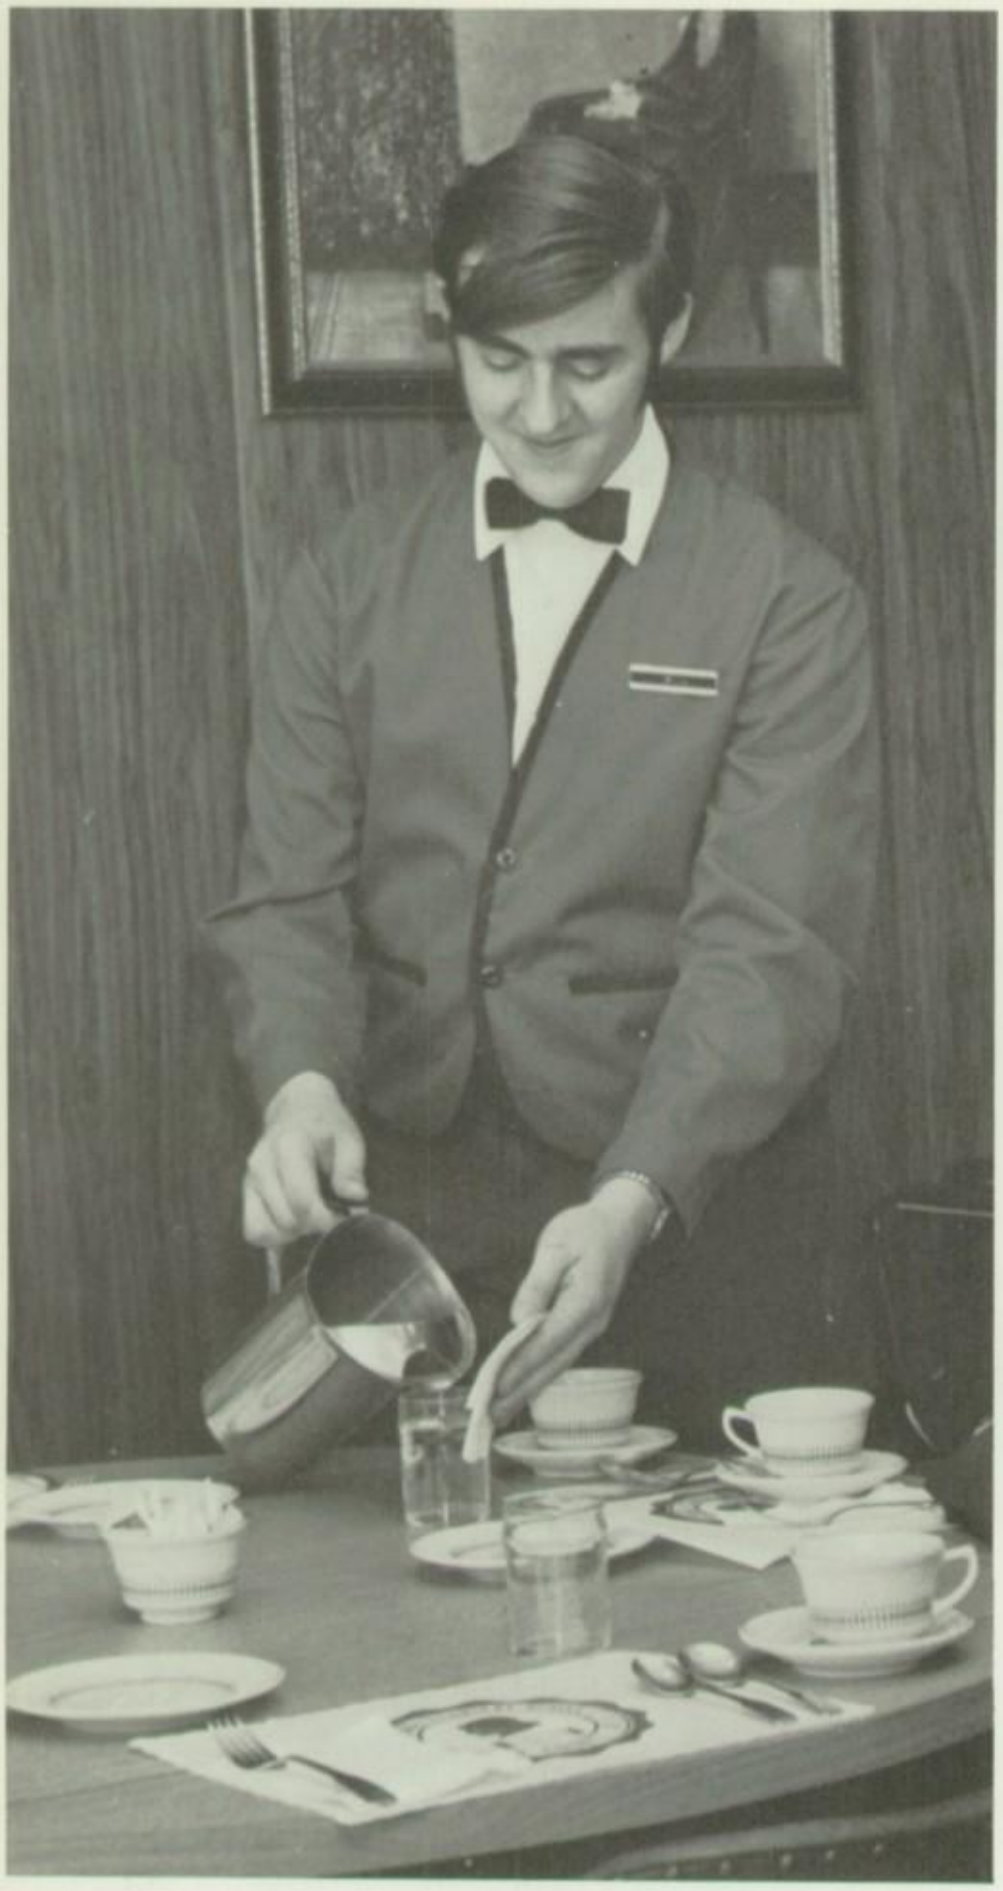
I knew that all the hundred thousand pieces of life's game were in my pocket. A glimpse of its meaning had stirred my reason and I was determined to begin the game afresh. I would sample its tortures once more and shudder again at its senselessness. I would traverse not once more, but often, the hell of my inner being. One day I would be a better hand at the game.

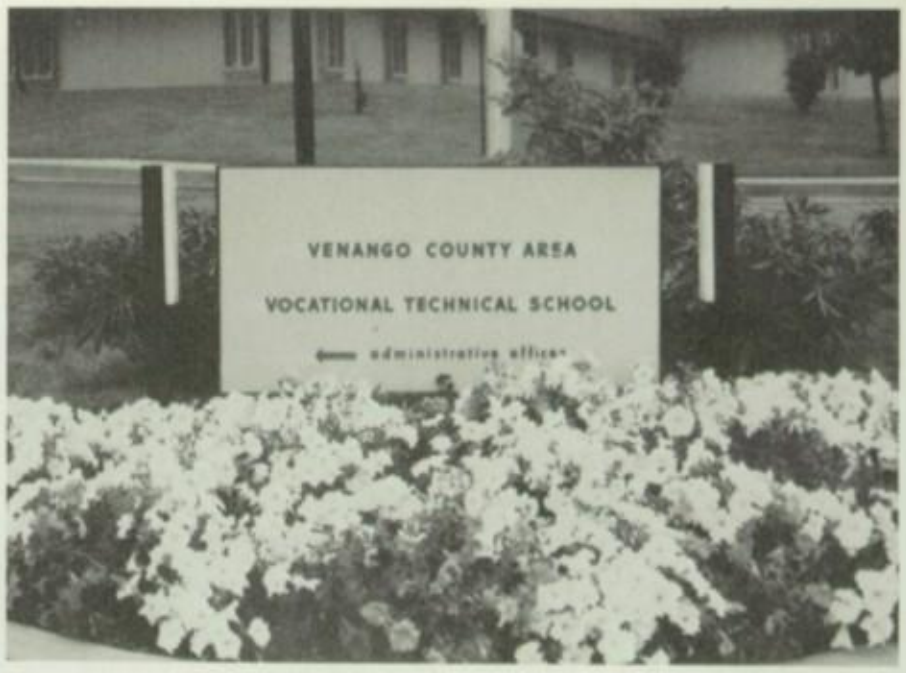
One day I would learn how to laugh.

Hesse



All life is holy.
All life is one.
Peace is understanding.
Where the roads of understanding
and problems intersect,
there grows the tree of life.





The Vocational-Technical School of Venango County is located in Oil City. Students attend this school on a half day basis in grades 10, 11, and 12. The educational program offers vocational training in technical, skilled trades, and occupational levels of instruction.

The Vo-Tech School is an advantage to the students who attend it. They are given new responsibilities and an understanding of working after high school graduation. Some of the students are assigned to "co-op" while still in school and others are placed on jobs after graduation.

The school is one way to provide educational opportunities for all students.

Some people just let life live them.
They just react to what comes to them.
We want to know who we are.
It used to be contained in a role.

"I don't know enough," replied the scarecrow cheerfully. "My head is stuffed with straw, you know, and that is why I am going to Oz to ask him for some brains."

"Oh, I see," said the tin woodman. "But, after all, brains are not the best things in the world."

"Have you any?" inquired the scarecrow. "No, my head is quite empty," answered the woodman, "But once I had brains, and a heart also; so having tried them both, I should much rather have a heart."

There are few human beings who receive the truth complete and staggering, by instant illumination. Most of them acquire it fragment by fragment, on a small scale, by successive developments, cellular, like a laborious mosaic.

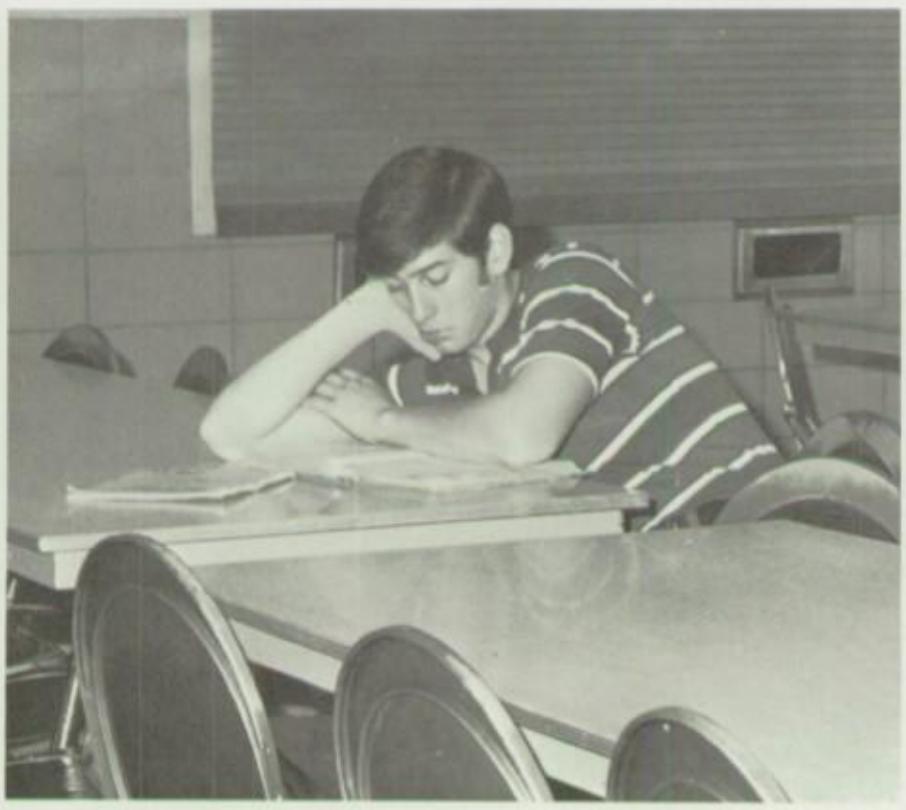
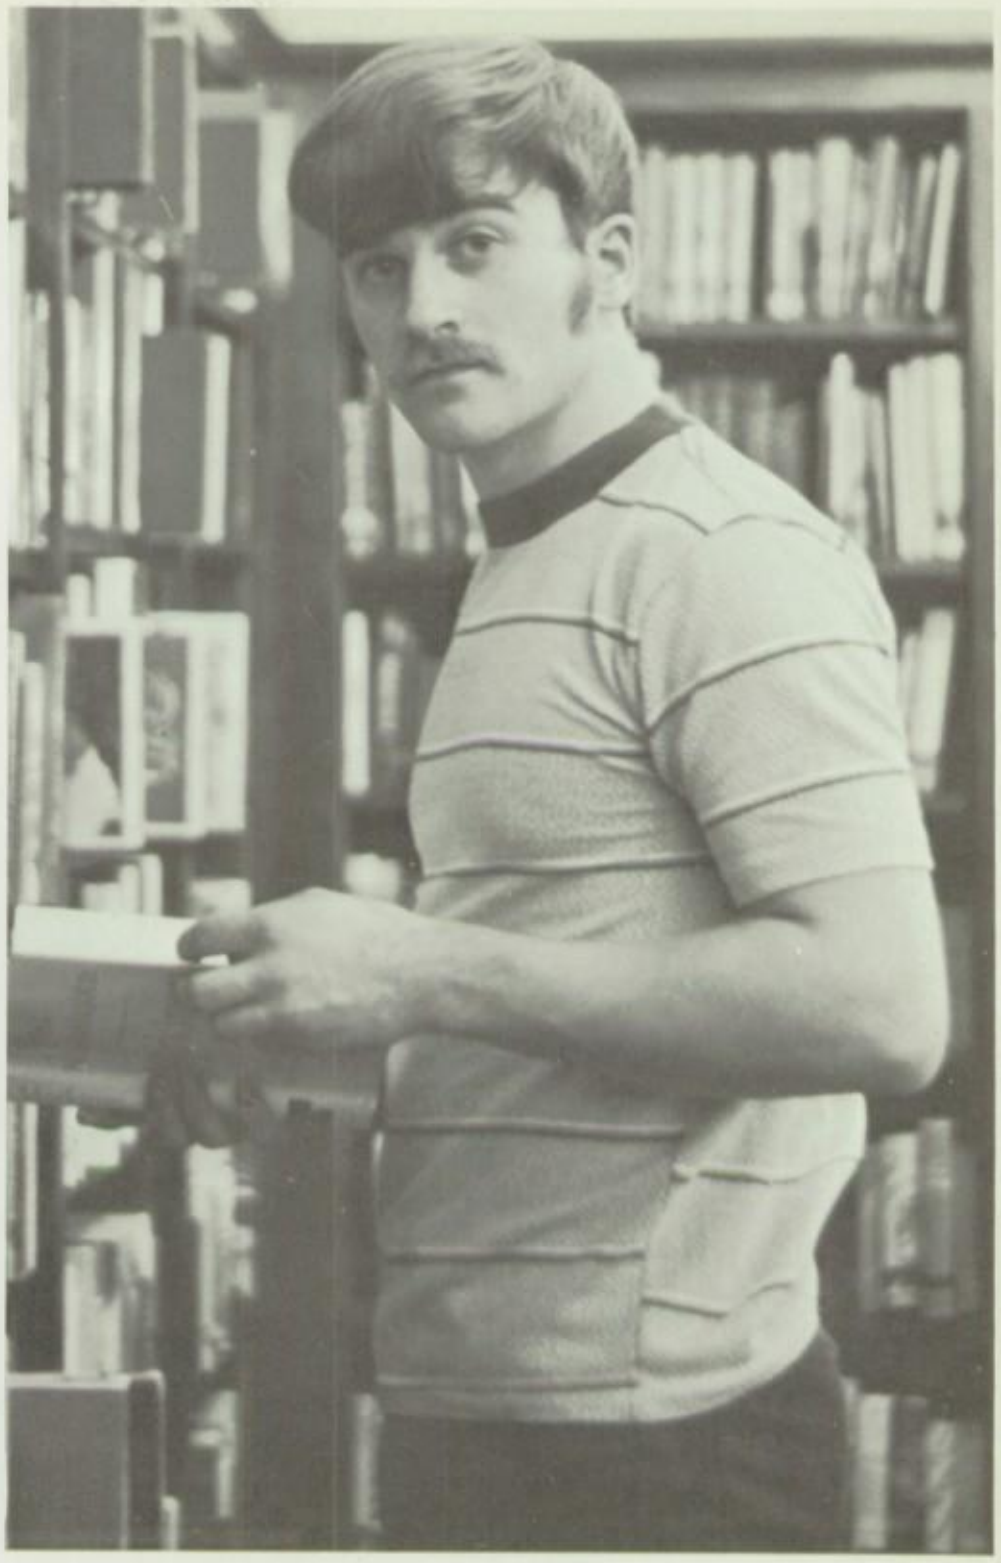
In Memoriam

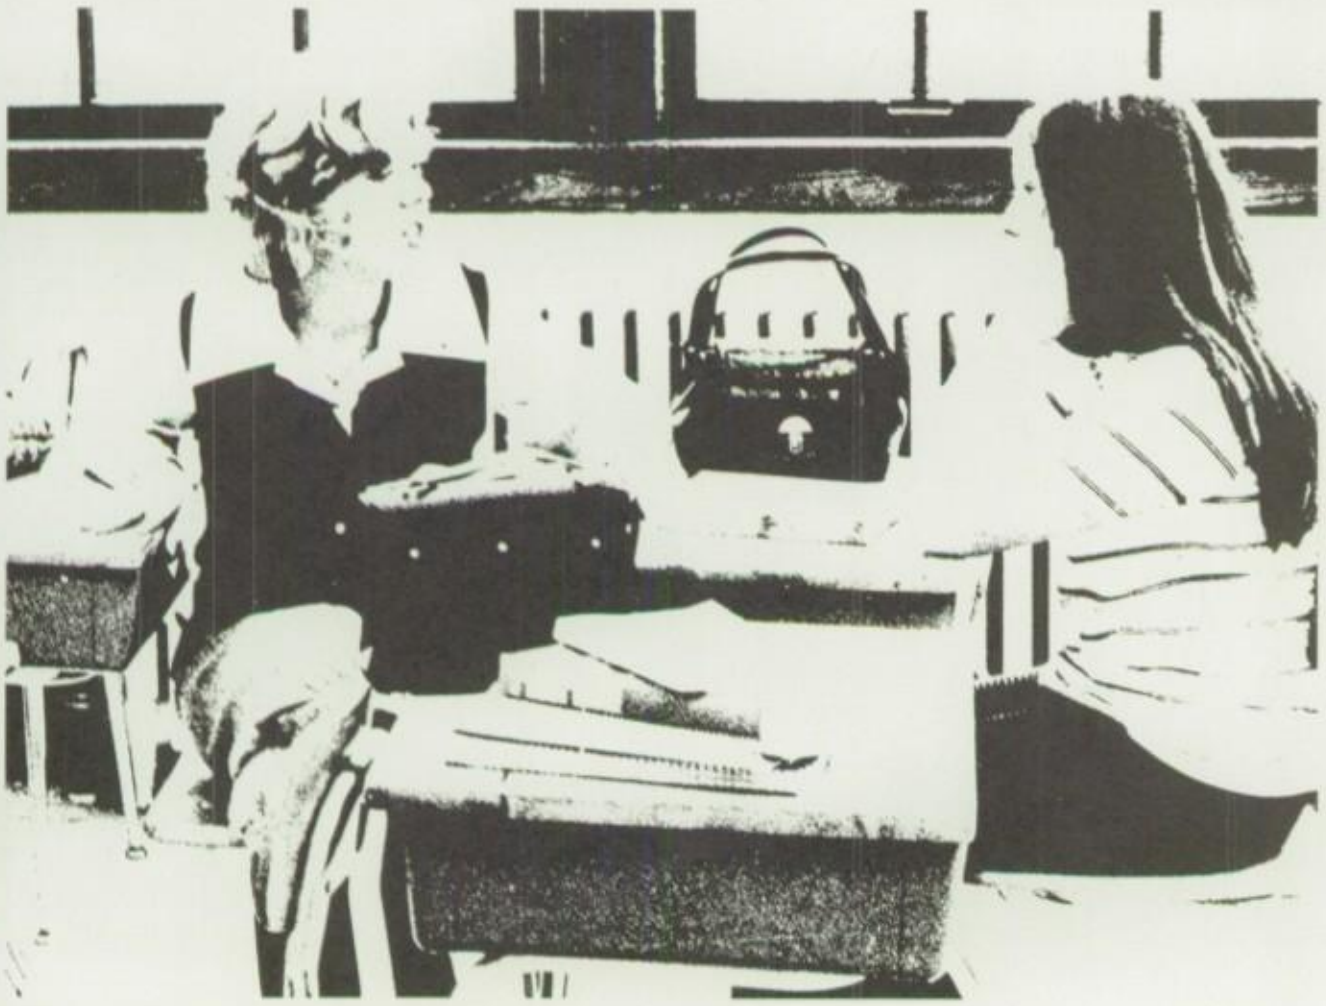
Sheraden Lee McMurdy
July 3, 1953 — June 10, 1971

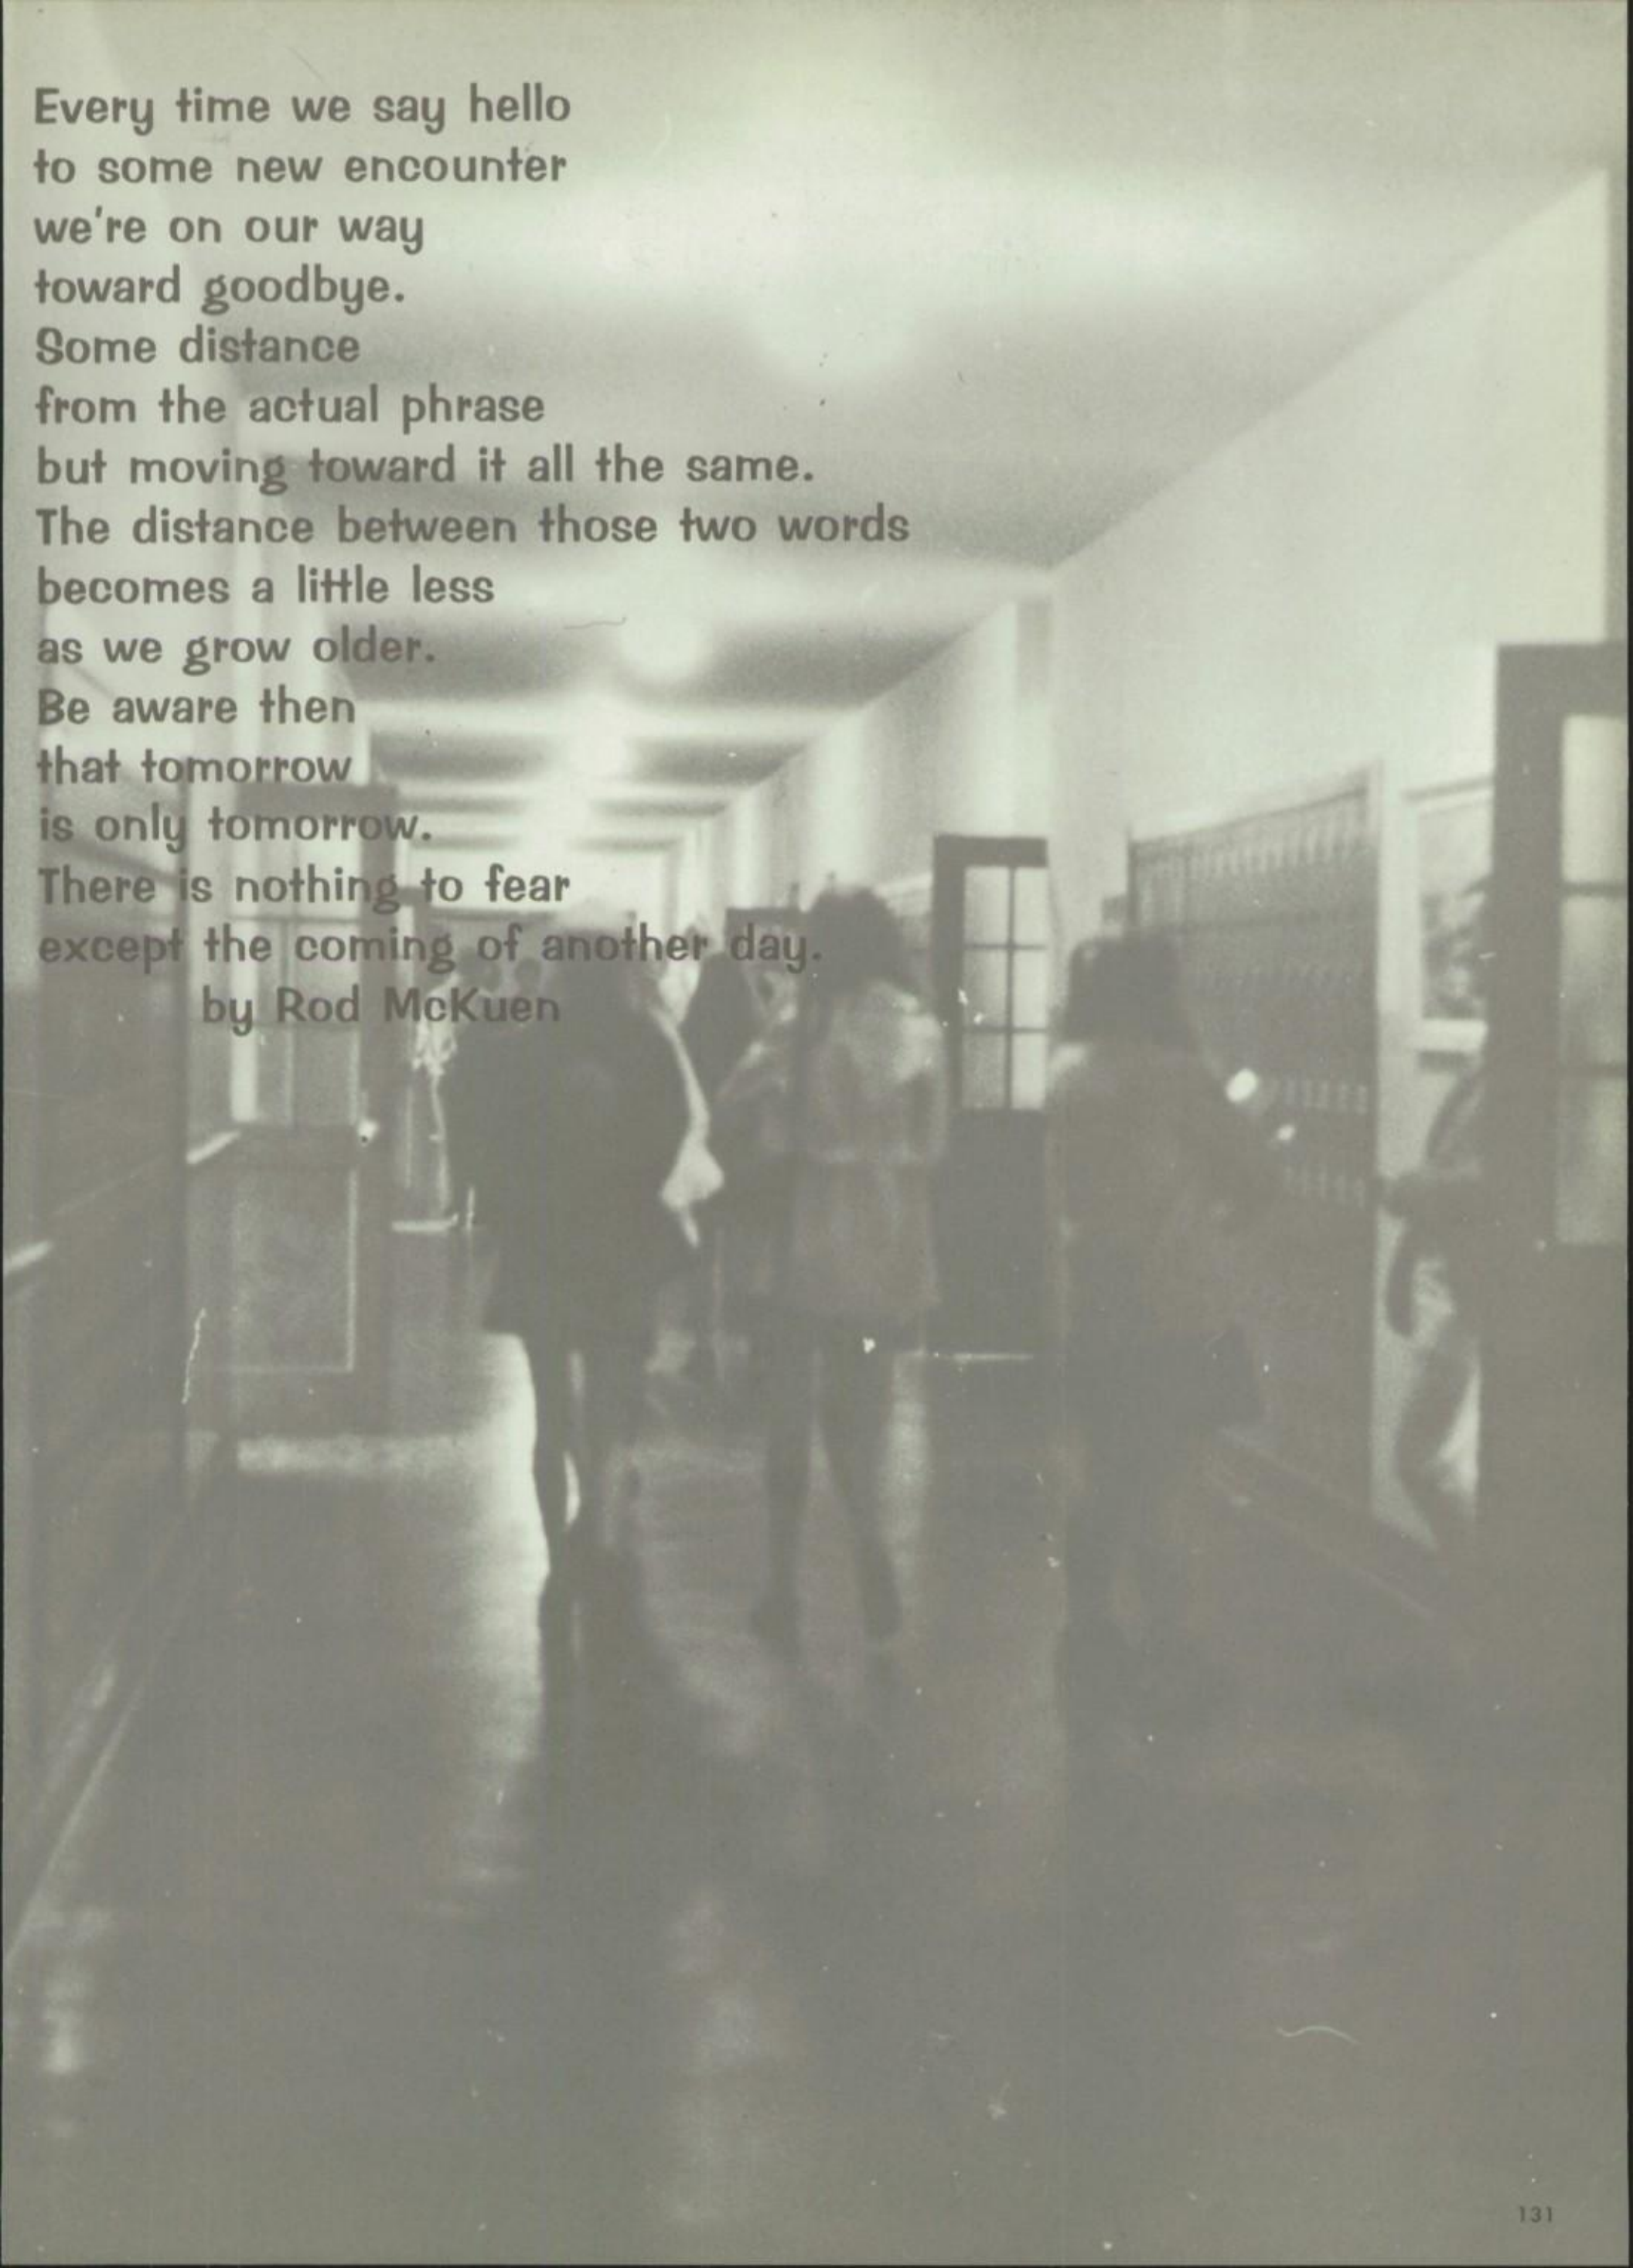
We acknowledge the
marvelously hidden
plot, the master illusion,
whereby we appear to
be different.

Alan Watts

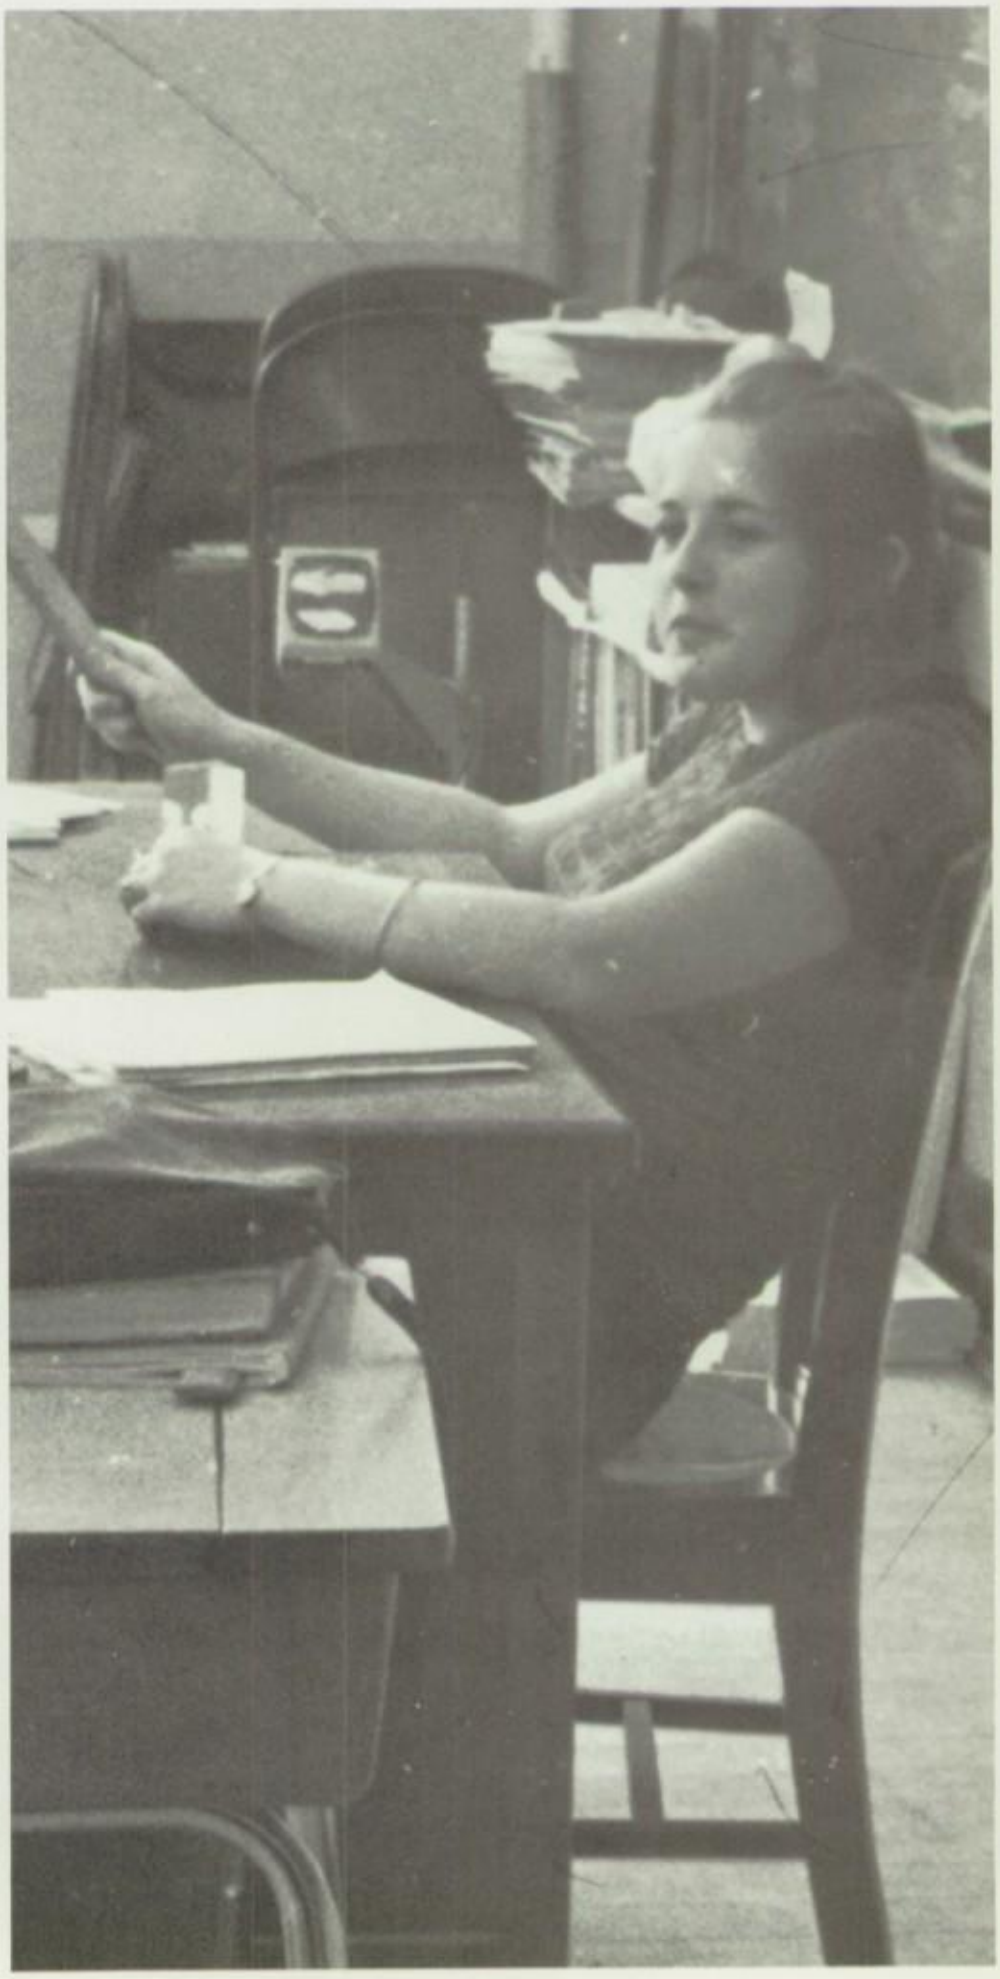








Every time we say hello
to some new encounter
we're on our way
toward goodbye.
Some distance
from the actual phrase
but moving toward it all the same.
The distance between those two words
becomes a little less
as we grow older.
Be aware then
that tomorrow
is only tomorrow.
There is nothing to fear
except the coming of another day.
by Rod McKuen



No work of love will flourish out of guilt, fear, or hollowness of heart, just as no valid plans for the future can be made by those who have no capacity for living now.
